Age of Assistance

A quick exercise....try to finish the sequence...

a. $3 - 9$

b. $4 - 16$

c. $8 - 64$

d. $9 - ?$

Did you get 81? How?

You took a-c, learned, and applied that learning to example d.

Learning:

That's exactly the kind of behavior that we are trying to teach to machines.
We are trying to teach machines to **“Learn from Experience”**.

How ML works: Teaching a computer to recognize a dog on YouTube

IS THIS A
CAT or DOG?

The sensors of the neural network might start by understanding what edges and colors it is looking at.

The last layer, called the connected layer, summarizes all this analysis and gives the probability of whether it is looking at a dog.

A third layer is trying to conceptualize what these shapes represent (for instance, is it an animal or something else?).

Another layer is trying to understand what shapes it is looking at.

Hilton anticipated customer needs and created personalized experiences via their hotel app where customers can select their rooms before arrival, check-in, and even unlock the hotel room door with their mobile phones.

Soon, your phone will be the digital remote that controls the temperature and connects the TV to your music or video streaming accounts. You will also be able to track how far your room service and see it coming down the hall via an icon in the app.

Agree that search results influence their perception on brands

Keep them engaged with you, not competitors

Simultaneously...

77% of TV viewers are simultaneously using another device
(PC, smartphone or tablet)

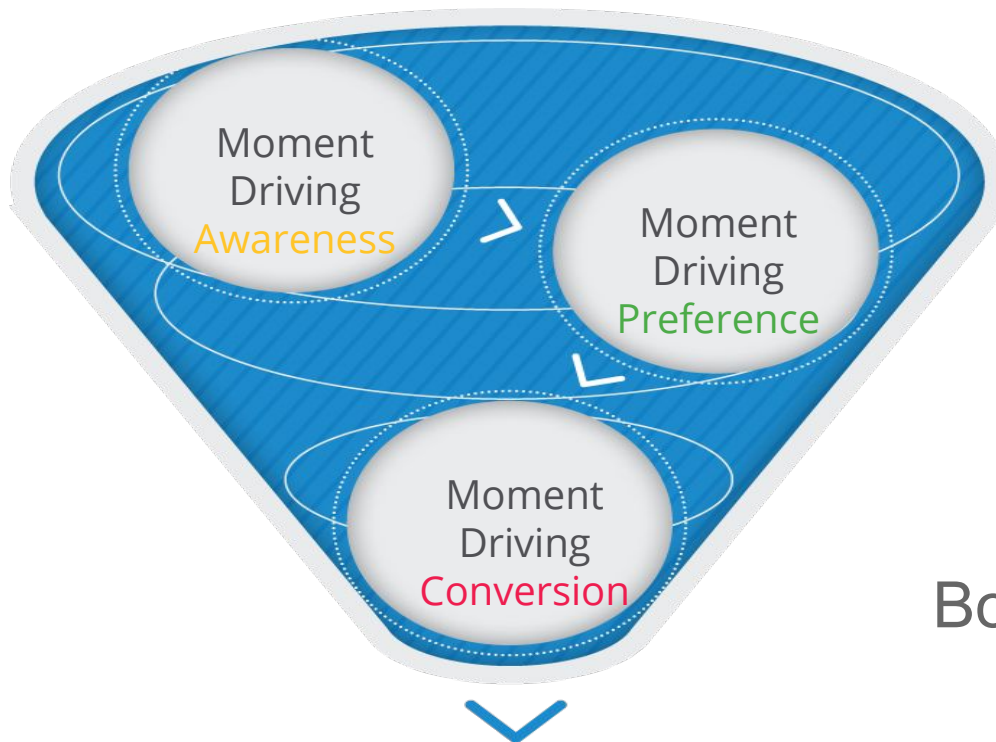

Control your brand image on search

When users search for your brand terms,
make your message the first thing they see.

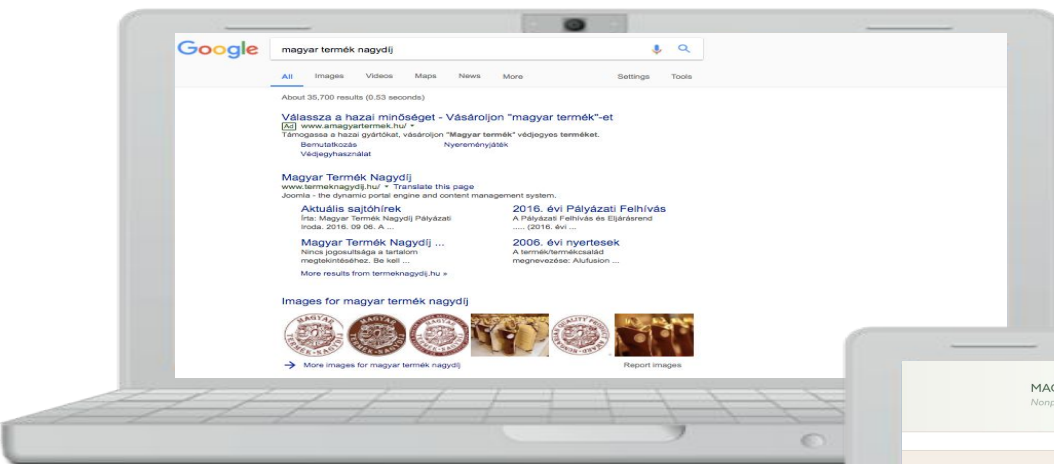

- Show your best, most up-to-date message when consumers look to engage with you
- Don't let competitors or critics guide user attention away from your brand
- Echo and build on positive publicity
- Reinforce your brand by emphasizing its voice and values at the top of the page

Use both **generic** and **brand keywords** for ...

Upper funnel

Bottom funnel

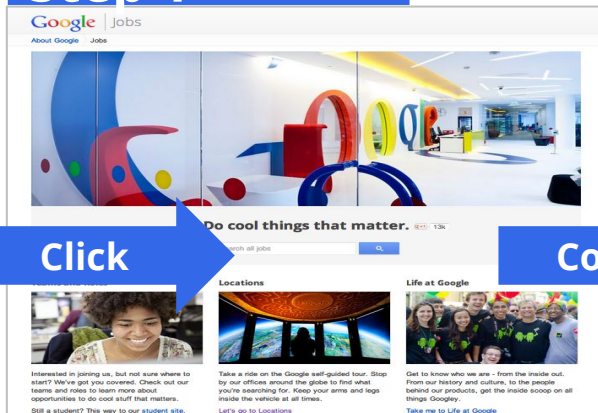

Search takes users
to the ultimate
branding tool

Get to know your customers and make sure to reach them

Optimize search ads based on customers' past site behavior

Step 1

Ads are mocks used for examples purposes only
Remarket to users who visited
your site when they later
perform relevant searches on
Google.com.

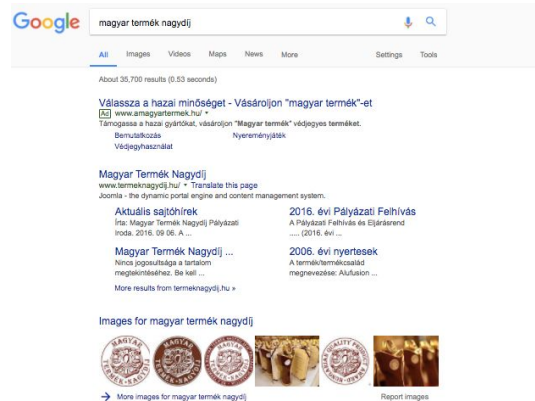

Step 2

Collect

Customize

Step 3

Apply a user list to a Google
search ad group to restrict
traffic to only that list of users.
When they search on
Google.com, serve an ad with a
customized message

Close the Conversion Loop

with **RLSA (Remarketing List for Search Ads)**
and branded search

Prior visitors that started the shopping cart process can still be converted in subsequent searches.

Use RLSA with brand terms to highlight compelling promotions for shopping cart abandoners.

Up-sell and cross-sell

The challenge is,
how do you connect
with consumers when
they aren't necessarily
searching for you?

A woman with short, wavy blonde hair and black-rimmed glasses is looking down at a smartphone held in her hands. She is wearing a grey long-sleeved sweater and a thin gold necklace with a small pendant. The background is a blurred workshop or garage with various tools and equipment.

Google Display Network offers a world beyond Search

Reach potential customers at an **unprecedented scale**, including users who aren't actively searching for you.

We help you reach customers at all points in the buying cycle - from discovery to purchase.

Trend 1: Marketing effectiveness

"Reaching all potential buyers of your category..." Byron Sharp

CONNECTED CONSUMER STUDY 2017

HOW VIDEO BEHAVIOUR HAS CHANGED

Digital and linear TV are both relevant

Linear TV remains a key for people to enjoy TV content, however digital TV is becoming increasingly relevant

Digital and linear TV year on year

Linear and digital TV are both frequently watched – digital TV likely to continue on this upward trend and get used more frequently over time

Frequency of watching linear TV over time among local population 16 years and more

Frequency of watching digital TV over time among local population 16 years and more

■ Daily ■ Weekly ■ Monthly ■ Less often ■ Never

| Screen stacking & how it's related to TV

Shared attention is a new challenge for TV as people split their attention by going online

Share of people 16 years and older who go online parallel to TV ('screen stacking')

Share of parallel online usage that is unrelated to the TV program among those who go online while watching TV

Question asked: QTV4c2016 and QTV4e [And while you were watching TV in the past month, how often did you go online in parallel through another device (e.g. computer, smartphone, tablet)? // Was your internet usage related to the TV program you watched that time?]
Base: Total population 16 years and older 2017 n = 1,005// 'Screen stackers' 16 years and older 2017 n = 429
Source: Connected Consumer Study 2017

Screen stacking across age groups

Screen stacking occurs across different age groups and is not limited to younger audiences

Question asked: QTV4c2016 [And while you were watching TV in the past month, how often did you go online in parallel through another device (e.g. computer, smartphone, tablet)? // Was your internet usage related to the TV program you watched that time?]
Base: Total population 16 years and older // 16-24 y n = 119 // 25-34 y n = 152 // 35-44 y n = 193 // 45-54 y n = 155 // 55 y and older n = 387
Source: Connected Consumer Study 2017

YouTube leads the industry in viewability and audibility

Sound, Sight and Motion

When it comes to driving brand impact, being seen and heard is not just important, it is fundamental

YouTube viewability is 40% higher than video ads across the web

Introducing Brand Lift

Brand Lift lets you measure the **metrics that matter** with **results you can trust** to **improve effectiveness mid-flight**

Measure the metrics
that matter

Brand awareness, ad recall,
brand interest, consideration,
favorability, and purchase
intent

Results you
can trust

Reflecting our
best-in-class methodology

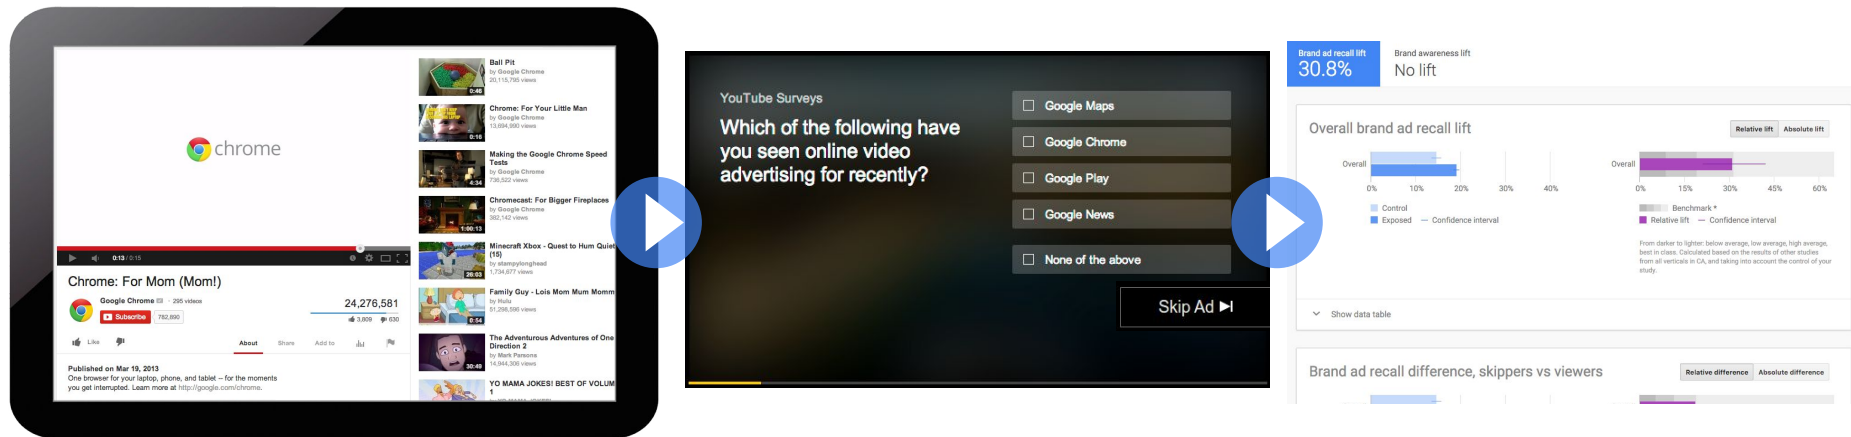

Improve effectiveness
mid-flight

By understanding what
works in near real-time

Measure the increase in **ad recall**, **brand awareness**, **consideration**, **purchase intent**, and **favorability** directly attributable to your TrueView campaign

- **Ad recall:** Which of the following have you seen online video advertising for recently?
- **Brand awareness:** Which of the following have you heard of?

Study question examples

Ad recall:

Az alábbiak melyikéről láttál online videohirdetést a közelmúltban?

Az alábbi bankok melyikéről láttál online videohirdetést a közelmúltban?

Awareness:

Az alábbiak melyikéről hallottál már?

Az alábbi bankok melyikéről hallottál már?

Favorability:

Az alábbi márkák/termékek melyikéről vagy pozitív véleménnyel?

Consideration:

Az alábbiak közül mely márkák/termékek megvásárlását fontolnád meg?

Az alábbi bankok közül melyik ügyfelévé válnál szívesen?

Purchase intent:

Ha legközelebb választania kell, az alábbi lehetőségek közül melyik mellett döntene?

Ha legközelebb új banki szolgáltatásra fizetsz elő, vélhetően melyiket választod?

A vibrant, high-energy scene of a crowd at a concert or festival. The image is dominated by a warm, reddish-orange glow from stage lighting. Numerous hands are raised in the air, some reaching high, creating a sense of collective excitement and celebration. The background is filled with bright, hazy light beams, suggesting a large-scale event.

Thank you!!
